

Fasteners

Metal / Neoprene Washers

Product Details

The metal/neoprene washer is compatible with all IB membrane fasteners (both screws and masonry anchors). It is used in conjunction with the fastener to allow for a watertight seal. The washer is generally used when fasteners are not protected by a counter flash detail and are exposed to the elements.

- **Color:** Galvanized steel / black neoprene.
- **Size:** 1/4"
- **Packaging:** 100 per pack, 1000 per 3 lb. box.
